# QPC Payment Center

QPC Payment Center is an integral part of all QENTA Payment CEE solutions. Designed as a bookkeeping interface, QPC Payment Center supports the management of your payment transactions (authorizations, cancelations, credits, etc.).

## Benefits and features

- Web interface for managing payments (approvals, cancelations, credits, etc.)
- No software installation, 100% web-based
- Username and password-protected access
- Wide choice of automation configurations

## Access data for testing

Use the following access data for testing QPC Payment Center in demo mode:

Demo access for testing purposes	
URL	https://secure.wirecard-cee.com/qpc32
Username	test
Password	jcv45z

Please be aware that when using this test account all data displayed in the QPC Payment Center are only demo data which cannot be changed by any action you take.

## Manuals and guides

For further information and details we invite you to consult the following manuals and guides:

Language	Manuals and guides
English	User manual
	Quick guide
German	Bedienungsanleitung
	Kurzanleitung
Hungarian	Kezelési útmutató
	Rövid útmutató

If you wish to integrate the functionality of the QPC Payment Center into your systems (e.g.

---

accounting or warehouse management) for automation please use our Toolkit zum QPC Payment Center (MD5 Hash: CA294AF90825DBA49299D61A4240447F)
